Price Five Cents

ROBBERS BLOW CRAB ORCHARD BANK

About \$4,000 Secured In East End of Lincoln Financial Institution.

(By Associated Press)
Crab Orchard, Ky., Jan. 31.—Robbers entered the Crab Orchard Banking Company's building during the night, tore the door from the vault, escaped with about \$4,000 in securities and postage stamps.

News received here is to the effect that the main vault was not entered, but some money that was on the outside was taken, the amount is not known. Henry L. Newland, who had about \$600 in bonds there, lost them. The bloodhounds were sent for but at the latest reports nothing had been learned. Deputy Sheriff Lewis was called from Stanford about seven o'clock and immediately went to the scene of the robbery, but was unable to obtain any clue.

Cashier H. G. Skiles, who is Lincoln county's representative in the legislature, was at home, having gotten in about midnight. During his absence his brother, Raymond G. Skiles, is attending to the duties of the institution.

BIG GUNS TAKEN IN CHICAGO RED ROUNDUP

(By Associated Press)
Chicago, Jan. 31.—A special grand jury investigating radical activities today indicted 37 members of the I. W. W., including William D. Haywood, former secretary of the organization, now at liberty from Leavenworth prison under bond, and Thos. Whitehead, who succeeded Haywood as secretary. The charges of conspiracy to overthrow the government. The indictments are outgrowths of State's Attorney Hoyne's new year roundup.

SUES HENDERSON BUGGY WORKERS

(By Associated Press)
Louisville, Jan. 31.—Suit to enjoin the vehicle workers' union at Henderson from interfering with the operation of Delker Bros.' buggy factory there, was filed in federal court here today by Harry E. Henry, of Jackson, Tenn., who asserted he contracted for the factory's output last June but cannot get goods because of a strike in the factory which has been picketed for several months.

NEWBERRY JURY READY

(By Associated Press)
Grand Rapids, Mich., Jan. 31.—The jury which is to try 123 defendants in the Newberry election conspiracy trial was complete in federal court here today. Half are farmers.

Sinn Fein Leaders Arrested

Dublin, Jan. 31.—Many Sinn Fein leaders were arrested in a big roundup today. They include seven newly elected members of the municipal council and Joseph McGrath, a Sinn Fein member of the House of Commons. The arrests caused great excitement here.

This Says Kolchak Bayonnetted

(By Associated Press)
London, Jan. 31.—A Moscow wireless today transmitted an extract from the official Bolshevik organ Pravda stating "only a few days ago Supreme Russian Kolchak was hoisted on his soldiers' bayonettes."

There has been considerable uncertainty as to the whereabouts of Admiral Kolchak, long time head of the All-Russian government, which was driven from Omsk and then virtually wiped out by recent Bolshevik successes in Siberia. He has variously been reported captured by Bolsheviks at Irkutsk, arrested by social revolutionists and under detention by revolting troops from his own army.

Mrs. S. G. Hise, of Richmond, and Mr. and Mrs. Robert McCrowder are the guest of Mrs. Frank Carroll at Nicholasville.

Partly cloudy tonight and Sunday; warmer Sunday.

Week's Weather Forecast

(By Associated Press)
Washington, Jan. 31.—Weather forecast for week—Ohio Valley: generally fair, altho some probability of local rains or snows early in the week; temperatures nearly normal.

TREATY GOES BACK TO SENATE FEB. 10

(By Associated Press)
Washington, Jan. 31.—The first formal step of democratic leaders to revive Senate discussion of the treaty, was taken today when Senator Walsh gave notice on February 10, motion to me made to proceed with the treaty's consideration.

ARMY BILL TO COST BILLION A YEAR

(By Associated Press)
Washington, Jan. 31.—The army reorganization bill with compulsory military training provisions as reported by the Senate Military Committee, will not only cost taxpayer a billion dollars annually but will result in "militarism run mad," said the minority report filed by Senator McKellar, democrat, of Tennessee. The report which is concurred in by Senator Sheppard, of Texas, said the measure would perpetuate the President's war powers and make him virtually dictator in peace times.

THIS CASE "TAKES ALL THE CAKES"

(By Associated Press)
New York, Jan. 31.—Miss Ethel Knowles, an English girl, who met Perley R. Spiker, of Baltimore, while he was at an aviation camp in England, was admitted to the United States with her baby today after being detained at Ellis Island while the authorities were considering the plea of Spiker's wife for permission to adopt the baby, and an offer of Guy S. Spiker, brother of the aviator, to marry the girl. Mrs. Spiker's affidavit to the immigration authorities recited her husband and Miss Knowles formed a friendship "which ripened into something more than friendship." She asserted Miss Knowles is not immoral under the immigration laws, is lovable, gentle, refined, and "I would welcome her into my home. I know the moral character and tendencies of my husband," the affidavit continues. "and know them to be beyond reproach."

Votes Million To Guard Booze

Washington, Jan. 31.—By a vote of 75 to 24 the House Friday appropriated \$1,000,000 to guard the liquor in the 800-odd warehouses in this country, amounting to 69,300,000 gallons. During the debate it was brought out that this amount would not be sufficient unless the liquor is concentrated in a few warehouses and a heavy guard placed over the supply.

Wet advocates insisted that it would require ten times the amount appropriated, but prohibition forces quieted their fears by calling attention to the move on the part of Anti-Saloon League to raise \$25,000,000 to aid the government in enforcement of prohibition. There is \$2,000,000 now available for enforcement of the act, and the additional amount authorized is to be used to pay guards only.

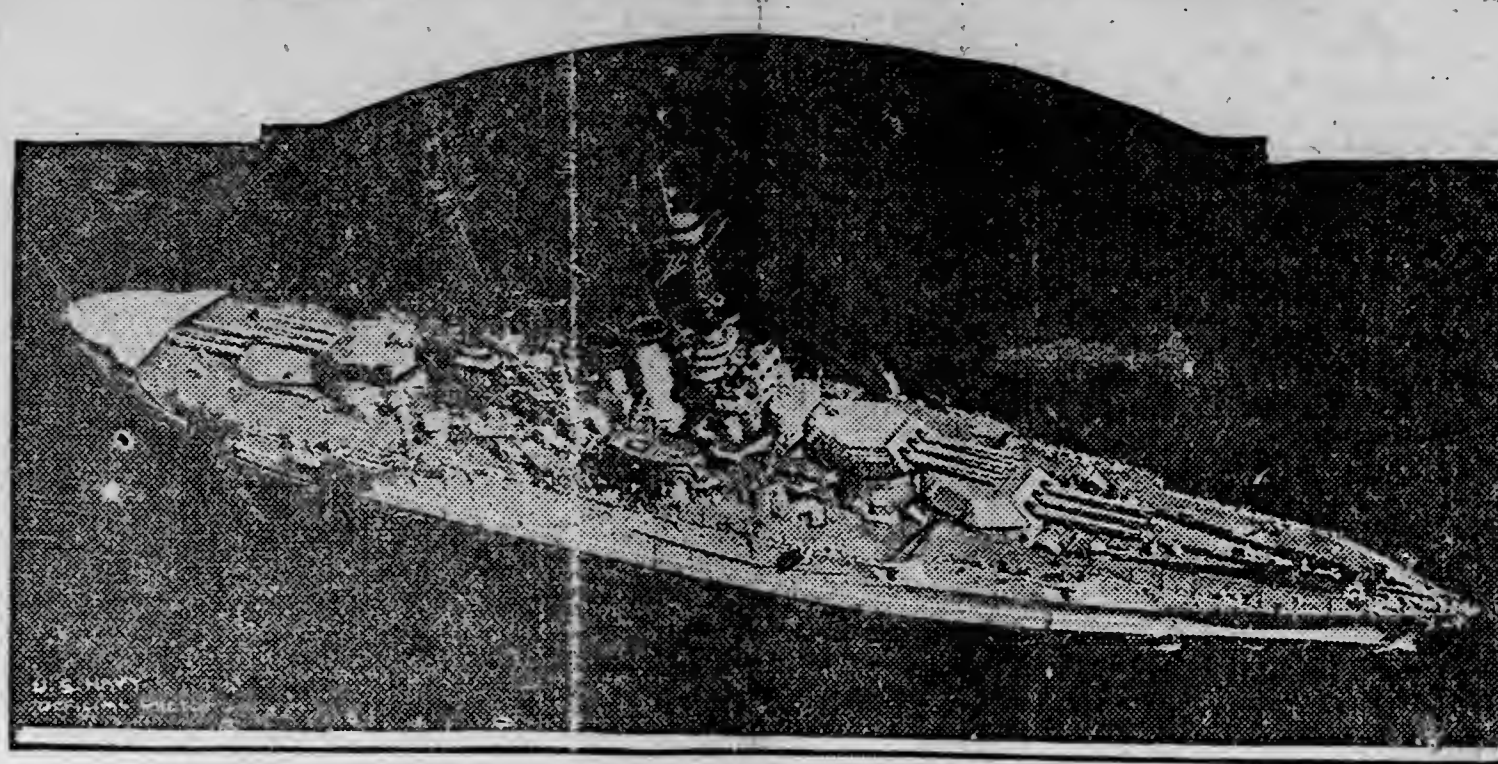

Mr. G. S. Powers, of Crittenden Grant county, is the guest of H. C. Pieratt, the Big Type Poland China man of Red House. Mr. Powers sold Mr. Pieratt quite a lot of his foundation stock. The Powers herd has a wide reputation for class in this variety of hogs.

MISS HAZEL GRUBBS DEAD

Miss Hazel Grubbs, daughter of Mr. and Mrs. Charles D. Grubbs of Mt. Sterling, died at Asheville, N. C., Thursday night after an illness of two years. The body will be brought home for burial Saturday morning. Miss Grubbs was widely known and was exceedingly popular all over Central Kentucky.

Senator LaFollette is in a Minnesota hospital in a serious condition.

FLAGSHIP OF PACIFIC FLEET FROM AN AIRPLANE

Remarkable airplane view of the United States battleship New Mexico, flagship of the Pacific coast fleet.

KIRBY SMITH'S PROCLAMATION

To Kentuckians In 1862, Owned By J. R. Cox, Of This City Who Exhibits It Here

A rare and valuable historical document was brought to the Daily Register office Friday by Mr. J. R. Cox, one of Richmond's best known citizens. It is the original proclamation to the people of Kentucky as drawn in his own handwriting by Gen. Kirby Smith, commanding the Confederate cavalry forces, and issued August 29, 1862.

The proclamation is written in ink upon blue lined paper and is in a splendid state of preservation, except that it has been mouse-eaten along the edge. The proclamation was addressed to citizens of Kentucky, and reads as follows:

Kentuckians: The army of the Confederate States has again entered your territory under my command. Let no one make you believe that we come as invaders seeking to coerce your will or to exercise control over your soil. Far from it. The principle we maintain is that all government derives its just powers from the consent of the governed. I shall endeavor to enforce the strictest discipline, in order that the property of citizens and non-combatants may be protected. I shall be compelled to procure subsistence for my troops among you and this shall be paid for.

Kentuckians! We come not as invaders, but as liberators. We come to uncoil the mesh which Yankee ingenuity and selfish men have woven around you. We come invoking the spirit of your resolutions of 1798. We come to arouse you from the lethargy which enshrouds your forethoughts and which forbodes the political death of your state. We come to test the truth of what we believe to be an untrue aspersion—that Kentuckians willingly join in the attempt to subjugate us and despoil us of our property, our liberty, our dearest rights. We come to strike off the chains which are being riveted upon you. We call upon you to unsheath your bright swords and joining shields with your Southern sisters to hurl back from our fair and sunny plains the Northern hordes whose cold malignity and calculating tyranny seeks to deprive us of our liberty that they may enjoy our substance. Are we deceived? Can you receive us as enemies? On heats answer, No!

Signed, E. KIRBY SMITH, Major Gen. Commanding.

HAVE THE CENSUS TAKERS MISSED YOU?

Census Enumerator, G. B. DeJarnette, of Crutcher's precinct, is anxious to learn if he has missed anyone in his enumeration of the precinct. If so, he hopes they will telephone him at Phone 91—J, Richmond, in order that none may be omitted from the precinct's population. It is possible that some may have been missed elsewhere; if so, the Daily Register would like to know of it and will undertake to inform the enumerators so that Richmond and Madison county may show up in the census report with her full population.

RECORD NUMBER TAKE EXAMINATION

The largest number of pupils from the county schools that ever sought admission to high school work, took the common school diploma examination here Friday. The County Board of Examiners composed of Prof. Paris B. Akin and Miss Margaret Douglas held the examination in the county court room. Results will be announced as soon as the papers are graded. The pupils who took the examination are as follows:

Florence Mae Whitaker, Newby; Gladys Sallee, Richmond; Anna M. Taylor, Union City; Frankie Eades, Union City; Beulah L. Taylor, Union City; Erle Moberly, Union City; Claud Jenkins, Newby; Russell Pearson, Richmond; Lillie Noland, Union City; Allene Metcalf, Waco; Kate Tribble, Waco; Bessie Cochran Waco; Geneva Kice, Richmond; Ethelene Cain, Waco; Bertha Murphy, Waco; Effie Gray, Waco; Margaret N. Jones, Waco; Nellie Noland, Union City; Edith Moores, Waco; Ruth Turner Newby; Leola Grizard, Richmond; Cornelia Baber, Union City; Rosa M. Chambers, Richmond; R. D. 3; Cecil Taylor, Richmond; R. D. 3; Algin Reeves, Waco; Tommie West, Union City; Walter Moores, Union City; Leonard Tribble, Union City; Edward Tevis, Union City; Earl Isaacs, Waco; Willie J. Turpin, Waco; Jessie Taylor, Richmond; R. D. 3; Franklin Million, Richmond; R. D. 4; Arnett Taylor, Richmond; R. D. 4; Julian H. Maupin, Richmond; R. D. 3; Turner Taylor, Union City; Urey W. Abney, Union City; Laura Ginter, College Hill. Only two colored applicants, Warfield Campbell, Richmond; R. D. 3 and Helen Lane, Richmond; R. D. 3.

These applicants are distributed as follows: Newby High school district 4, Union City High school district 14, Waco High school district 14, Model Rural school 3, Normal school 1, Richmond 1, Forest Hill 2, College Hill 1.

There are two colored applicants, one from College Hill and the other from Peytontown. So far the list of questions has been practical and comparatively easy. Yesterday spelling, reading, writing, arithmetic and grammar were disposed of. Today there are six subjects, agriculture having been added by law of last legislature. The subjects for the day are composition, geography, physiology, history, civil government and agriculture.

Another County Common School will be held on the second Friday and Saturday of May.

Seven Take K. T. Degree

Richmond Commandery, Knights Templar initiated a nice class into the honors of Knighthood Thursday evening. The local degree team is one of the very best in the state and always puts on the work in beautiful and impressive style. Those who took this important degree in Masonry were Messrs. W. Y. Davis, V. L. Snowden, Rev. E. C. McNall, Virgil M. Chapman, J. E. Cantrell and A. L. Flynn, all of Irvine.

High priced land demands a guarantee of fair profit. Basic Slag is that guarantee. Order now. 26—6

SCHOOL DISTRICTS MAY VOTE BONDS

Where Consolidations Have Been Made, If Ballard's Bill Passes—The Legislature

Representative Leonard Ballard is spending the week-end at home from Frankfort. He has just introduced a bill to permit consolidated school districts to submit the question of a bond issue for school purposes to vote of the people of the district. The bonds can be voted to secure money to build school houses, buy grounds or for other necessary appurtenances of an up-to-date country school. It is not believed that there will be any opposition to the measure.

Two sessions of the Legislature, each day, beginning with next week will be advocated by members who are eager to put through the administrative legislative program. Monotony of the House routine was broken by introduction of Captain Marion F. Shepherd, of McKee, one of Kentucky's war heroes. Speaker Joseph E. Bosworth, in introducing him, said that Captain Shepherd had captured more than 100 Germans, including six officers, and that he had been wounded when in many engagements.

The bill, backed by the Louisville Automobile Club and favored by the administration, abolishing the Department of Motor Vehicle and authorizing County Clerk to issue registration cards for motor vehicles, was introduced by Representative Benjamin A. Roth, of Louisville.

Favorable reports were made on the bills of Representative J. W. Johnson to fix state tax rate on chickens at 16 cents; of Representative A. M. Wash, to authorize the Sinking Fund Commission to convert the stock in the National Bank of Kentucky belonging to the school fund, and to invest in bonds of \$27.50 for each share, of Representative J. M. Knott, to provide the character of teachers' certificates and the manner of issuing them; of Representative Roy J. Cain, to provide for teaching the art of debating in public schools; of Representative Benjamin L. Cox, to provide for reading the American creed in schools once every month, and of Representative Isaac S. Mason, to provide that the Adjutant General's office be reconstructed.

The measure of Representative Homer C. McLellan to prohibit manufacture, sale or transportation of intoxicating liquors, fixing a penalty and providing for forfeiture of property used in manufacture, sale or transportation of same also was favorably reported, as were those of Representative A. J. McCandless to permit coal miners to obtain an inspector of scales; of Representative Harry J. Meyers to regulate the practice of optometry and creating a board of five members appointed by Governor; of Representative McCandless to require County Tax Commissioners to visit precincts outside of the county seat in making assessments.

Bills killed by unfavorable reports are those of Representative George Ringer to regulate paying of claims for printing supplies by Jefferson Fiscal Court; of Representative Jewell S. Webb to provide for filing articles of a corporation with a capital stock of no specified value, requiring the organization tax on their total capital or valuation of \$100 a share.

Mr. and Mrs. Buster Kimball, Oxford, O., are the proud parents of a little daughter, who has been christened Gail Davis. Mrs. Kimball, was formerly, Miss Nan Davis, of this city.

Bryan refused to discuss Hoover's candidacy for the Presidency.

THE MARKETS

Louisville, Jan. 31.—Cattle 150; slow; \$5.25 to \$13; hogs 600; active and unchanged; sheep 50; steady and unchanged.
Cincinnati—Packers 25c to 75c higher; Chicago 10c higher; cattle steady.

COL. JACK CHINN DIES IN LEXINGTON

(By Associated Press)
Lexington, Ky., Jan. 31.—Col. Jack Chinn, widely known turf man, whose home was at Munday's Landing, Kentucky, died at a hospital here today. He had been in failing health for some years.

DIAMOND FOUND AFTER 10 YEARS

Ten years ago, Kit Crutcher, son of Mr. and Mrs. James S. Crutcher, was playing with a diamond ring, the property of his grandmother, Mrs. W. I. Crutcher, at her home here. Kit was then a youngster of two years, a knickerbocker, and would hardly be identified as the husky young football player that he is today. In some way the ring was missed, and it was thought that the little fellow had lost it. Friday Mr. Crutcher recovered the jewel. Deputy Sheriff Jim Taylor of Valley View, recovered it from a negro of that section, who had bought it, it seems, from another, who has been employed in the Crutcher home 10 years ago. Confession was made as to how the ring had been obtained and Mr. Crutcher readily identified the ring as that which had been his mother's. He is high in his praise of the fine work that Mr. Taylor did in recovering the stone, which has greatly increased in value during the decade it has been "lost."

JUROR FORCED TO SIGN MURDER VERDICT

N. E. Arnold, of the Perryville section of Boyle county, moved to Mississippi, near West Point some months ago, and from there went to Louisiana, where he was killed by a negro the other day. Many Madison men who have been in Mississippi knew Arnold. A dispatch from Monroe, La., said today:

Because a juror failed to agree to a verdict of guilty in the case of Alvin Calhoun, negro, alleged confessed slayer of N. E. Arnold, a young white farmer, a mob publicly whipped the recalcitrant juror and then dipped him in a mud hole, said reports reaching here from Tallulah, where the trial was held. After his chastisement, the report said, the mud covered juror returned to the jury room and agreed to a verdict of murder in the first degree. He then was ordered to leave town by a delegation of citizens.

BASKET BALL GAMES

The basketball team, of the Model school 8th grade, defeated the 8th grade of Caldwell school 20 to 12 to 5 Friday. The Normal school basketball team was defeated by Kentucky Wesleyan College 50 to 17. The Normal boys.

MILLIONAIRE STARVING HIS STOCK

Lexington, Ky., Jan. 31.—Humane Officer Lon McCarty will go before the Fayette County grand jury and ask an indictment for cruelty to animals against W. E. D. Stokes, millionaire horseman of New York, owner of Patchen-Wilkes Stock farm, near Lexington, because of the alleged conditions at the farm, where broodmares, cattle, hogs and other animals are said to be suffering from lack of nourishment. Through Mr. McCarty's efforts last month a carload of oats and other feeds were sent to Patchen-Wilkes farm, but only a limited supply of this is left now, and no more has been received, according to the humane officer.

Mr. McCarty stated he had found that several mares died from lack of nourishment and that many more died from exposure that they could be in a rundown condition. Several yearling colts were suffering so severely from exposure that they could hardly walk, he said.

FOR RENT—Two nice rooms on first floor, suitable for light housekeeping; water and bath furnished. Apply 361 Fifth street. 27 4p

CIRCUIT COURT BEGINS MONDAY

But Court Day May Cause Formal Opening To Be Deferred Until Tuesday

February term of Circuit Court will convene Monday, but as Monday is County Court Day, the probabilities are that Judge Shackelford will adjourn over until Tuesday, in order that the members of the jury and others may not be tied up on court day. Circuit Clerk J. W. Wagers has the docket in good shape for work. It is made up of 49 equity appearances, 8 ordinary appearances, 4 appeals, 76 criminal cases, 55 old equity cases, 13 old equity cases, 33 are divorce suits, 14 of them being continuances and 19 of them having been brought since the last term of court in October, 1919.

A number of new suits have recently been filed with Circuit Clerk Wagers, which may come up for trial this term.

G. L. Wren has brought suit against the Berea Bank & Trust Company, for delivery of a \$500 Liberty Bond, which he claims to have purchased Oct. 8, 1918. Attorney G. Murray Smith represents him.

J. G. Hoskins has brought suit against Charles Hurt for \$219 which is secured by a mortgage on a tobacco crop raised near Moberly. Attorney A. R. Burman represents the plaintiff.

City Attorney J. P. Chenault has filed an appeal on behalf of the city of Richmond from the judgment given Jailer W. H. Burgess in quarterly court for the sum of \$12.62, amount of axes which are claimed. This suit is being out of the right of the city to collect taxes from jailer.

One who claims his residence in the county and that he is not liable for city taxes. He claims that he is a resident of the city only temporarily and that his home for taxation purposes is in the county. Attorney A. R. Burman represents Burgess.

A suit has been filed here by J. T. Sanford against G. B. Angel for \$1,400, alleged to be balance due for the drilling of an oil well in Lee county. Attorneys W. T. Smith of Lexington, and S. D. Parrish, of Richmond, represent the plaintiff.

Through Attorney A. R. Burman, Corlie Congleton filed suit against C. F. Taylor for \$168.50, representing half the cost of repairing an automobile, which was damaged in collision. Mr. Congleton alleges that each party agreed to pay half the cost of repairing the damage done, but that he was forced to pay it all and that Taylor will not reimburse him.

Suit filed by Mrs. Cora S. Boggs against the State Bank and Trust Company, administrator of the late W. R. Boggs, for \$725, realized from the sale of an Oakland automobile, which the plaintiff says was her personal property.

W. M. Hisle has filed an appeal against Dudley Farthing for \$50 damages claimed to have been done to a tobacco crop by poor farming.

Leon Doty has filed suit against the U. S. Railroad Administration and L. & N. railroad for \$260 damages for loss sustained in sale of mules which were damaged and emaciated from failure of employees of the railroad to feed and water and from bruises and rough handling, while being shipped to Richmond from East St. Louis, Ill. Attorneys Chenault and Chenault represent Doty.

Wm. Baber, as administrator of Nannie M. Baber has filed suit against the Metropolitan Life Insurance Company, for \$124, alleged to be due on an insurance policy carried with the defendant company. Mrs. Baber died Sept. 13, 1919, and plaintiff claims that due and proper notice was given the company of her death but that it refuses to pay the insurance due. Attorneys O. P. Jackson and H. C. Rice represent Baber.

Entered at the postoffice in Richmond as second class mail matter under Act of Congress of 1905.

World Launches Hoover Boom

The New York World on January 21 published a lengthy editorial vigorously urging Herbert Hoover for the Presidency. The support of the World was pledged to the Hoover candidacy without qualification. The World will support him on a Republican, Democratic or Independent platform. The strong claims of Mr. Hoover for consideration as a Presidential possibility are outlined by the World with force and with a good deal of conviction. The world sees in him the highest personality that has emerged from the great war—a man who knows Europe and the near-East as no other American does—a man of extraordinary administrative genius—a man of independent thought and high purpose.

The World was the first newspaper to point out the availability of Woodrow Wilson as Presidential timber. The boom it now launches for Hoover

is sure to play a part in the political drama now opening.

Speaking of Kaiser Bill

Two stories concerning the ex-Kaiser are going the rounds of the daily papers, both of which will be interesting to Richmond as they the always interested in reading about the world's most despised being.

The first story is to the effect that the ex-Kaiser is speculating in stocks, and that he is winning. In fact, it is stated that he has been so successful his fortune is twice as large now as it was when he went into exile. Which goes to show that he ought to have gambled in stock and bonds in the first place, instead of in the matter of human lives.

The other story is to the effect that couriers come and go from the Kaiser's home regularly, carrying mysterious baggage. This baggage is locked and sealed and the key carried by another man than this one who carries the baggage. The man with the key reaches the Kaiser's house one day, and the man with the baggage the next. Then the man with the key returns to Berlin, and the next day the man with the baggage joins him. And all Europe is excited over the story.

It may excite Europe. But if such a thing was being pulled off over here in this country we'd merely think somebody was bootlegging.

There is this much to be said in favor of the prodigal son. He had nerve enough to walk back home instead of telegraphing for money.

Some Richmond girls in the matrimonial game are like the prodigal son. They fail to make a bit because they're too anxious.

Job, of Bible days, never had a real test of patience. He never had to sit around and wait for them to ratify the peace treaty.

We heard one well known Richmond man say yesterday that he doesn't take as much exercise as he ought to because exercise works up a big appetite and his grocery bills are high enough now.

We are not saying it with a desire to make them mad, but if some girls took a beauty sleep they'd never wake up.

A lot of officials in this country whose duties it is to arrest the "Reds" seem to be color blind.

LANCASTER

The marriage of Miss Lillie Mae Sutton to Mr. Bryan Wilmot, of Stanford, was solemnized at the Phoenix Hotel in Lexington, Rev. T. E. Ectin of that city officiating. The bride is the daughter of Mr. and Mrs. Pat Sutton, of this county. Mr. Wilmot is a son of Mr. James Wilmot, of Lincoln county. Immediately after the ceremony the couple left for Louisville and will return to Lancaster to reside.

The Woman's Club met Thursday afternoon at their rooms on Lexington avenue. Mrs. R. T. Peddicard was the leader and gave a most interesting reading. There were about 20 members present.

Mrs. James Woods entertained a number of lady friends at dinner Thursday in honor of her sister, Miss Mary Noel of Danville.

Mrs. Tom Young, nee Miss Stella Lewis of Tokyo, Japan, is the weekend guest of Mrs. Ross Bastin. Mrs. Young is now doing missionary work in Japan and this is her first visit home since 1914.

Dr. and Mrs. J. S. Gilbert entertained at their home on Danville avenue at an elegant dinner in honor of Mr. J. R. Moorman. The following guests were present: Messrs. R. E. Roberts, J. A. Beazley, J. W. Elmore, H. Clay Kauffman, R. L. Elkin, J. R. Moorman, Dr. W. M. Elliott, and Dr. Virgil Kinnaird.

Misses Judette Daniel and Thelma Hamilton entertained Friday evening with rock and dancing at the home of Miss Hamilton on Richmond avenue.

Mr. Frank Yantis, an old Lancaster boy, but now making his home at Paragould, Ark., is visiting relatives in Lancaster. This is his first visit here in thirty-five years.

The marriage of Miss Vivian Ella May, of Danville, to Mr. J. M. Edwards, of this county, was solemnized in Jeffersonville, Ind., Rev. Andrews of the Christian church of this city, officiating. The bride is the attractive daughter of Mr. and Mrs. W. T. May of Danville. Mr. Edwards is one of Garrard's most successful farmers.

BARK ROAD

Wickliffe Kindred is very low at this writing.

Miss Emma Lain left today for Lexington, where she enters the business school.

J. E. Lain is not through husking corn yet.

There is going to be a pie supper at Dreyfus the 31st of Jan.

The people of this place have very severe colds.

Miss Annie Lain visited Miss Kate Puckett over Sunday.

Mr. Jim Puckett bought a nice young horse of Joe Pitman.

Mr. Owen Durbin has contracted his hogs to M. C. Lain for the June market for \$1600.

Mr. Frank Jones has returned home from the war house where he has been at work.

On account of so much rain our roads are getting in bad condition.

Mr. David Kindred has had bad luck with his calves, as he has lost three.

CHIROPRACTIC

As Taught At The Palmer School Of Chiropractic—Chiropractic Fountain Head

Chiropractic Is The Master Key That Unlocks The Door To Health

After centuries of unwavering search on the part of humanitarians in an endeavor to find a drugless method that will unlock the door to health. IT HAS BEEN PROVEN BEYOND REASONABLE DOUBT THAT IN CHIROPRACTIC A MASTER KEY HAS BEEN DISCOVERED. PURE CHIROPRACTIC IS NO LONGER AN UNTRIED THEORY. IT HAS BEEN TRIED, WEIGHED IN THE BALANCE AND FOUND TO BE FULL WEIGHT, i. e., ONE HUNDRED PER CENT.

Knowing This, Why Are You Sick, When By Using

CHIROPRACTIC—THE MASTER KEY

You Can Unlock The Door To Health and Become A Useful, Strong, Red-Blooded Citizen?

—W H Y ?—

Because you have no pain in your back is no sign that the vertebrae (small bones of the spine) are in perfect alignment. If a nerve leading to your liver is impinged (pinched) where it emerges from the spine, the disease will be found in the liver and not in the spine. This is true of all organs and tissues of the body. If the nerves leading to the tissues of the back are impinged, then the disease will be in the tissues of the back. The subluxation (displacement) may not be great enough for your family physician to detect, but REMEMBER his fingers are not trained for such work, while the CHIROPRACTOR'S are.

The teaching of CHIROPRACTIC is radically different from all other methods, both drugs and drugless, yet in perfect harmony with anatomy and physiology. It teaches that so called disease is caused by occlusion of nerve force caused by pressure on spinal nerves by slight displacements technically called subluxations must be adjusted to their normal positions, thus releasing the nerve force to the diseased tissues.

IF YOU ARE ANXIOUS to be in GOOD HEALTH AND WISH TO KNOW WHAT CHIROPRACTIC WILL DO FOR YOU AND YOURS, CALL AND SEE ME AT THE EARLIEST OPPORTUNITY. CONSULTATION AND SPINAL ANALYSIS FREE.

The Vapor Treatment FOR Influenza, Croup and Pneumonia
Mothers who know the anguish of waiting helplessly through long hours for the physician who may not arrive in time will hard-
ly fail to keep on hand a bottle of this effective croup remedy. Vapo-
mentha is a certain preventive and specific for colds, croup, influenza,
grippe, pneumonia and other respiratory ailments.

BRAMES VAPOMENTHA
WILL NOT STAIN THE CLOTHES
It is applied externally to the chest, throat and nos-
trils and is quickly absorbed through the pores of the
skin. Its healing vapors rise and are inhaled directly
to the infected membranes. A double-action remedy,
it is doubly certain to produce satisfactory results.
It has this characteristic that distinguishes it from
other salves, it will not stain the clothes. Buy a
bottle of Vapomentha TODAY. It is an invaluable
protection for an insignificant price.

ESCAPED AN OPERATION

By Taking Lydia E. Pink-
ham's Vegetable Compound.
Many Such Cases.

Cairo, Ill.—"Some time ago I got so
bad with female trouble that I thought
I would have to be
operated on. I had
a bad displacement.
My right side would
pain me and I was
so nervous I could
not hold a glass of
water. Many times
I would have to stop
my work and sit
down or I would fall
on the floor in a
faint. I consulted
several doctors and
every one told me the same but I kept
fighting to keep from having the opera-
tion. I had read so many times of Lydia
E. Pinkham's Vegetable Compound and
it helped my sister so I began taking it.
I have never felt better than I have
since then and I keep house and am able
to do all my work. The Vegetable Com-
pound is certainly a grand medicine."
—Mrs. J. R. MATTHEWS, 3311 Sycamore
Street, Cairo, Ill.

Of course there are many serious cases
that only a surgical operation will re-
lieve. We freely acknowledge this, but
the above letter, and many others like it,
amply prove that many operations are
recommended when medicine in many
cases is all that is needed.

If you want special advice write to
Lydia E. Pinkham Medicine Co. (confi-
dential) Lynn, Mass.

PAINT LICK
Paint Lick has no telephone con-
nection with either Richmond or Lan-
caster. It seems the telephone com-
pany is in no hurry to get up a wire
but when the rental comes due the
company will want full pay just the
same.

Miss Christine Metcalf, of Stan-
ford, is the guest of Mr. and Mrs. U.
M. Burgess.

Miss Maggie Frances, who has been
in Middlesboro for some time is at
home for awhile.

Joe Boan has sold his old engine that
he ran with his thrasher and she's
bought a new one, and will saw the
logs of Tom Todd as soon as the
weather permits.

Ed Williams and his two daughters
are on the sick list.
Miss Minnie Johnson, one of our
former teachers held an examination
for the eighth-grade pupils last Fri-
day and Saturday.

In my last letter to you there was
a typographical error. I said Rev.
C. S. Ellis would go to Carlsbad
Spring, Grant county not Garrard
county.

Miss Sadie Ralston has returned to
Georgetown College after being home
to see her mother, who has been sick
but now much improved.

Miss Kate Ely has been visiting her
sister in Paris, Mrs. Joe James.

Misses Ellen and Cynthia Prewitt
entertained a few friends Saturday
night to play rook.

WACO
Mr. J. M. Cockrell, of Fayette county
county returned home after a vis-
it to his mother, Mrs. G. W. Grin-
stead.

Mr. Will Bush has purchased the
Click home now occupied by Mr. Mur-
phy. Possession given Jan. 1921.

Mr. W. M. Hisle bought a lot of
wheat this week from Mr. Evans, of
Panola.

Miss Loula Baumstark is visiting
her aunt, Mrs. E. H. Bybee in Rich-
mond.

Mr. W. R. Cain is in the mountains
this week buying cattle for court day
market.

Mrs. B. F. Wilson, Mrs. Armer
Hisle, Mrs. Leroy McKinney, children
and Parker Taylor are convalescing
from their recent illness.

Quite a number of our people are
attending the revival services at the
Methodist church in Richmond con-
ducted by Dr. Morrison of Wilmore.

TERRIBLY SWOLLEN
Suffering Described As Torture
Relieved by Black-Draught.

Roseville, Ga.—Mrs. Kate Lee Able, of
this place, writes: "My husband is an
engineer, and once while lifting, he in-
jured himself with a piece of heavy ma-
chinery, across the abdomen. He was
so sore he could not bear to press on
himself at all, on chest or abdomen. He
weighed 165 lbs., and fell off until he
weighed 110 lbs., in two weeks.

He became constipated and it looked
like he would die. We had three different
doctors, yet with all their medicine, his
bowels failed to act. He would turn up
a ten-cent bottle of castor oil, and drink
it two or three days in succession. He
did this yet without result. We became
desperate, he suffered so. He was swollen
terribly. He told me his suffering
could only be described as torture.

I sent and bought Theodor's Black-
Draught. I made him take a big dose,
and when it began to act he fainted, he
was in such misery, but he got relief and
began to mend at once. He got well,
and we both feel he owes his life to
Theodor's Black-Draught."

Theodor's Black-Draught will help you
to keep fit, ready for the day's work.
Try it!

LALLEY LIGHT and POWER

**Long Non-Stop Runs Proves
Lalley Quality**

Time and again, the Lalley has proven that it is an extraordinarily
good electric light and power plant.
But the most convincing recent proof, was given at a number of
state and county fairs in the fall of 1919.
At these fairs, Lalley plants were run day and night, without stop-
ping, throughout the fairs.
The shortest time recorded was 102 hours; the longest 216 hours.
The average was 138 hours, or more than 5½ days.
In every case, when the plant was stopped, there was no sign of
wear. Instead, there was every evidence that the plants could have
been run indefinitely, for days and even weeks.
Long non-stop tests at the Lalley factory are common occurrences,
and these are made as severe as possible.
But we believe these records of continuous runs in public are un-
paralleled.

These machines were standard Lalley plants, regularly
manufactured for the market. They were taken from
dealers' and distributors' stocks. They performed without
the constant supervision of factory experts—out in the
open, where anyone and everyone could see.

No owner, of course, ever needs to run his Lalley for days at a time
without stopping. But such performances help buyers to realize
the Lalley ability to give them reliable, economical and efficient
service, day and night, whenever they need it.

There are many reasons why the Lalley does give this unrivalled
service—service so satisfactory that the Lalley is the preferred
electric light and power plant for farms, and everywhere that cen-
tral station electricity is not easily and cheaply obtainable.

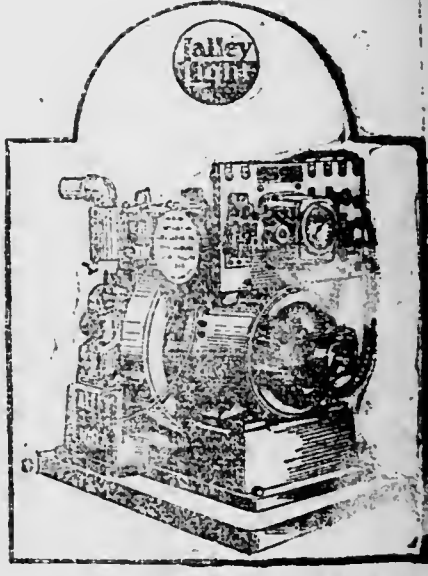

It has been in actual daily farm use for about ten years—proving
itself absolutely reliable under all conditions.

It has only three moving parts—no complicated mechanism to get
out of order and wear out rapidly.

It is ball-bearing equipped, which, with only three moving parts,
practically eliminates internal friction and wear.

It is water-cooled, like the Liberty airplane motor, and practically
every automobile motor. Lalley water-cooling keeps the engine
always at the proper heat, insuring the best service and the longest
life.

All we ask is the chance to demonstrate the Lalley plant for you.
Come to our store, or telephone and we will go to your house.

SAVED FROM HAREM

Armenian Girls Rescued from Turks Being Taken to Near East Relief Home.

The three pretty Armenian girls in the auto are taking a real "joy ride," joyful having another meaning from that generally associated with auto riding here. They have been rescued from the harem of a Turk after four years of shameful servitude and are being taken to one of the Near East Relief rescue homes. No wonder they are smiling for the first time since their captivity. The Near East Relief is caring for many thousands of these girls until they can find their relatives. Also it is working to save 250,000 orphans and over a million adults from starvation this winter. That is why it is making a nation wide appeal for funds to carry on its noble work.

AUSTRALIA WILL CUT H. C. OF L. HERE PREDICTED

New York, Jan. 31.—A prediction that the cost of living in the United States would begin to fall about June 30 of this year because of the great supplies of foodstuffs that would begin to arrive from Australia about that time was made by J. W. Isaacs, an exporter and importer of Melbourne, Australia, who is stopping at the Imperial Hotel here.

"Mutton in Australia today costs but ten cents a pound," said Mr. Isaacs, "beef and other meats in proportion. There are thousands of tons of wheat and meat and thousands of pounds of wool awaiting exportation to the United States."

CONTINUE TO GO UP

(By Associated Press)

Washington, Jan. 31.—Twenty-two articles of food reached their record prices on December 2. They were six-tenths of one per cent higher than in December, 1913, according to the bureau of labor statistics.

Our Own Masters.

We have been told that America is to save the world and rescue civilization from dissolution, but we must do it in our way; in the way that has made us, in a little more than a century, the most unified, the most virile, and the most potent single power in the world. And when we ask ourselves what it is that has given us this unity, this virility, and this potency, the answer is, that we have founded this nation upon principles of law, and upon the guarantees of individual rights under the law. That is our great contribution to civilization; and if we are to be of use to other nations, old or new, our first thought must be to remain our own masters, to preserve our independence, to control our own forces as a nation by our own laws, and to protect our heritage of organized liberty from any form of detraction or perversion. —David Jayne Hill in the South American Review.

Giant Warrior of Middle Ages.

The pride and magnificence that played their part in the days of chivalry can hardly have a better illustration than the suit of equestrian armor which has recently been placed on exhibition in the Metropolitan Museum of Art, in New York city. Sieur Jacques Gouffon de Genouilhac wore the suit in the sixteenth century, and Sieur Jacques was an uncommonly large and powerful warrior, who served under Louis XII. and Francis I. of France. As may be deduced from their armor, the knights of the period were not noticeably large men, and Sieur Jacques must have seemed a veritable giant, for a six-foot attendant at the museum has tried on his armor and is said to have "merely rattled around in it."

Sea Moss.

Owing to the war the supply of "sea moss," of which several hundred thousand pounds, valued at almost \$50,000, have been imported annually, for the most part from France and Germany, has virtually come to an end. Sea moss (not seaweed) is the popular name of several kinds of small marine animals that grow in colonies of a branching, plantlike form. Their commercial value arises from their having a horny skeleton which preserves the general plantlike shape of the growth.

Difference of Custom.

"In old England people showed their excitement by saying 'Zounds!'" "And in New Jersey the commuters say 'Zones!'"

CANNING FACTORY FOR HICKMAN IS PLANNED

Hickman, Ky., Jan. 31.—If the farmers in this section sign up to grow 109 acres of tomatoes Hickman has a chance of getting a canning factory and the matter of getting the acreage promised has been turned over to the County Farm Bureau.

The Kellogg Products Company, of Buffalo, N. Y., has purchased the plant of the United States Breweries Company and will use it to make buttermine.

FISH IN STORAGE

Last year the cold storage plants of this country reported approximately a total of 10,000,000 pounds of frozen fish in their warehouses or one-tenth of a pound per capita for our population.

WOMEN TO FIGHT H. C. L.

Invitations are being prepared by the Federal Fair Price Commission, of Louisville, asking all women's club and other organizations in Kentucky to attend or send representatives to a convention in Louisville, January 23 for the purpose of mobilizing their behind the Government's plans for reducing the high cost of living.

The highest living costs since 1915, are due largely to the five great packing concerns, whose profits from 1915 to 1917 inclusive were more than \$192,000,000 for the preceding three years, William B. Clover, chairman of the federal trade commission, declared in an address read before the Atlantic coast conference of the national consumers league on Newmark, N. J.

No Use To Wash Fish

"Dinah," inquired the mistress suspiciously, "did you wash the fish carefully before you baked it?" "Law, ma'am!" said Dinah, "wot's de use ob washin' de fish dat's lived all its life in de water?"

Appellate Court Holds 100-Year-old Contract Void

A contract that has been in existence and annually performed for 100 years, was declared to be void and unenforceable Friday by the Court of Appeals at Frankfort.

Many years ago, J. A. Crawford owned real estate in the city of Mt. Sterling and conveyed to Mt. Sterling the site on which the Montgomery county court house is built, on condition that all land owned by him should forever be free from taxation. This contract was entered into by him and the city, and in the course of time by conveyance, the land came to Mrs. A. H. Judy, and recently suit was entered to collect the taxes due the city from his property, and Mrs. Judy declined to pay the taxes on the ground that the property was exempt. She filed a counter claim, setting up damages amounting to \$50,000, the value of the property on which the court house was built, if it were held that she must pay the taxes.

The Appellate Court held that the contract entered into between Crawford and the city is void and unenforceable, and that Mrs. Judy must pay the taxes and is not entitled to recover damages.

The Kenyon bill appropriating \$6,500,000 for the education of illiterates in this country was passed by the Senate.

Come Here Hunting Teachers

Shortage of teachers in the Fayette county schools brought Mrs. Nannie C. Faulconer, county superintendent, and Mrs. W. C. Wilson, one of her faculty, over to Richmond Friday. They visited the Eastern Normal and sought to secure some experienced teachers, and will undoubtedly be able to secure some from here very soon.

HAVE SIMILAR FINGER MARKS

Important Discovery Made by California Professor as to Peculiarities of Family Groups.

Prof. J. A. Larson, instructor of physiology in the University of California, announced a new discovery in connection with finger prints which is likely to have a remarkable influence on many important cases, that concern the law courts of California.

Briefly, Professor Larson's discovery indicates that a similarity of finger prints among members of a family is sufficiently marked to enable scientists to trace family groups and determine positively whether a given individual is really a member of the family to which he claims relationship.

The importance of the discovery in probate cases such as the Shingis case is obvious.

Should Dr. Larson's new discovery be accepted by law and science, the Shingis decision may be reversed, as well as many other analogous cases.

Dr. Larson's investigations began in 1912 at the Boston university.

"Since that time I have examined prints of members of approximately 100 families," he said, "and I am satisfied in my own mind that such a means of identification is possible. I am preparing detailed reports of my work now in order that science may be benefited by my discovery. Before I complete this, however, I expect to investigate the prints of fifteen or twenty additional families so as to remove all doubt as to the accuracy of my discovery."—San Francisco Chronicle.

AMBER FORMED BENEATH SEA

Natural Resin of Pines Turned Into Precious Material by the Action of the Elements.

The world's supply of amber, that rare and therefore precious substance, the "gold of the north," as it has been called, comes from the coast of Samland in the eastern Prussian peninsula, between the towns of Danzig and Palmenick, and here the shafts of a famous mine run out under the Baltic and the miners are actually working under water. Ages ago the country was a land of pine forests which the ocean overwhelmed; the pine trees vanished beneath the surface of the sea, and then, century by century, the wood became fossilized and the natural resin of the pines was turned into amber. Millions of years were needed to transform the resin into amber, and the search for amber has developed romantic and picturesque episodes like those that have become part and parcel of the story of gold and diamonds. An amber mine, however, is not necessarily under water, and there is an open-air mine at Palmnicken where amber is dug for in much the same way as diamonds are sought in the mines of Kimberley. In normal times this one mine provides occupation for about 3,000 amber seekers.

Good, better and best, is the way the saying runs. When you speak of coffee, it is good, better and Rookwood. Buy your Rookwood today from D. B. McKinney & Co. 191f

As Wear-Proof as the Hide on the Cow's Back "BATTLE AXE" Shoes

Millions of shoes that are sold are not solid leather—they are made of cheap substitutes.

Every time you buy a pair of such shoes you lose money. "BATTLE AXE" Shoes are made of real, live, lasting leather that wears like the hide on the cow's back.

So you save money every time you buy "BATTLE AXE" Shoes.

Every shoe that bears the "BATTLE AXE" trade-mark is a good shoe. The inside is right as well as the outside.

We want you to come in and let us show you the "BATTLE AXE" line of shoes. You will find the very thing you want for yourself and family. Prices are money-savers.

No Schedule Change, After All

L. & N. Agent W. H. Bower has just received word from headquarters that the date of the change of schedule of the old L. & N. branch as announced in the Daily Register Friday, has been postponed. It is planned to put the revised schedule into effect later, perhaps, but it will not be done yet. The changed schedules affected the early morning train from Ravent to Frankfort, which will therefore continue to reach Richmond at 7 o'clock, and the night train from Frankfort, which gets here at 5:15 as before.

Gov. Coolidge, of Mass., announces that he is not a candidate for the Presidency and never has been.

Shallowness.

Shallow waters show a very clear bottom and but little intensity of light is needed in order to display the pebbles and clear sand. That must be a "truest ray serene"—a pencil of strongest light—which discloses the black, rich, wreck-strewn depths. For the clearness of depth is very different from the clearness of shallowness. The former is a positive quality. The latter is negative.—Charles Warren Stoddard.

"O'Shea," said the captain sternly "I saw you running from a boche this morning as if the devil were after you; you had thrown away your rifle dam—"

"Yis, sor Oi knew it, sor, but ya see Oi had just slipped a live hand-grenade in his pocket, and—"

"I see," said the captain.—Amer. Legion.

HOME BUILDER'S PAGE

"No, Bill, I wouldn't take a thousand dollars for it."

THAT'S what users say about Delco-Light, the complete electric plant. Levi Stout, Coffee Creek, Montana, says: "I would not take \$2,000 for my Delco-Light if I could not get another."

Albert Knoepke, Moccasin, Montana, says: "I would rather quit the ranch than do without Delco-Light."

Why are these men so enthusiastic?

It's because Delco-Light, with its successful air cooling, its one place to oil, its kerosene burning engine and production of four kilowatt hours of electricity per gallon of fuel, gives them maximum service with minimum attention.

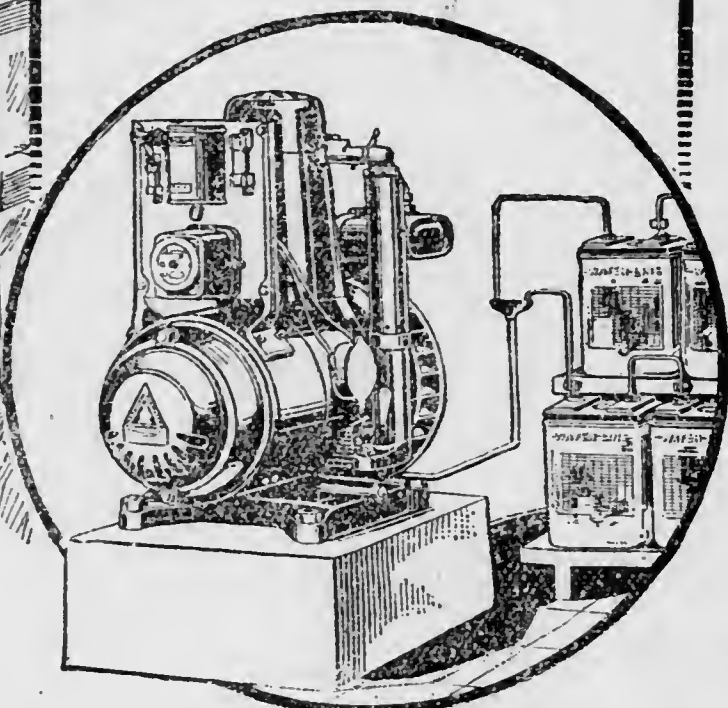

The experiences of more than 75,000 satisfied users prove these things to be true of Delco-Light.

Delco-Light brings to your farm or country home every comfort and convenience of the most modern and up-to-date city residence.

IN COUNTY COURT

Henry Hughes a farmer of the Newby section, was dismissed on a charge of mistreating the two little daughters of James W. Masters, in Squire T. B. Collins' court Friday morning. The warrant was taken out by Mr. Masters upon complaint of his 10-year

old daughter Deylie Masters, but the evidence was not held as sufficient to hold Hughes. The case against Col. Isaac Isaac, charged with giving a "cold check" to W. D. Oldham & Co., but when a white man says "cold check" to W. D. Oldham & Co., for \$80.50 was dismissed as he made the check good within 30 days allowed by law. Squire Collins tried both these cases in the absence of County Judge Price who was ill. The case against John W. Masters, charged with stealing some money from a local warehouse was dismissed.

MEX ENGINEER

DOES HEROIC DEED

(By Associated Press)

Laredo, Tex., Jan. 31.—A story of heroic action on the part of a locomotive engineer, which probably saved the lives of many passengers, recently printed in Excelsior, a daily of Mexico City. The engineer, the paper said, was too modest to permit the use of his name.

In the state of Zacatecas, the newspaper said, the engineer of a passenger train received word a locomotive had been turned loose to run wild by a bandit chief named Jural, with the purpose of destroying a passenger train approaching from San Isidro.

Hastily uncoupling his own engine from its train, the engineer took up a mad ride and finally ran the pilot of his locomotive into the rear of the "wild engine". Leaving his own engine in charge of the fireman, the engineer crawled over the tender of the "wild" machine, shut off its steam and stopped it just in time to prevent it crashing into the San Isidro passenger train. The "wild" engine was found to be filled with dynamite and other explosives.

Passengers of the threatened train "went wild with joy", Excelsior said, "and prevented everything they could to the hero."

Allen's Test.

It is a common thing for an alienist to demand a specimen of handwriting in order to help him determine whether or his patient has delusions, is insane, or is carried away by certain emotions or any abnormality. And there is a reason for this. It has been proved many times that there is a distinct relation between the nerves of the brain and those of the hand, so that a man's writing reflects his mental temperament.

MARRIAGE LICENSES

Tom Flannery, 19, son of Joe Flannery and Lucy Smith, 21, daughter of Wiley Smith; both of Richmond.

Oscar Newby, 25, son of Townsend Newby, and Jessie Tudor, 19, daughter of H. H. Tudor, both of Valley View.

Navy Blacksmith Shop.

The village blacksmith shop under the spreading chestnut tree is for rent. The smithy has gone to sea to learn some new tricks of the trade in the U. S. Navy schools.

Blacksmithing is now a highly specialized trade in iron working. Once a man masters it he is sure of a good living for life, either in or out of the service.

A real interest in one's work is as necessary in the Navy schools as in others, but Jack is paid to learn and is sure of his job as long as he wants it, providing he is in earnest.

The above photo shows a couple of anvils doing a big business at a Navy Artillery School.

EVERY AUTOMOBILE OWNER NEEDS LIABILITY INSURANCE WHETHER IN THE CITY OR COUNTY

Traffic density causes many accident, but not all. Automobiles are not operated on sand rails over private right of way. No driver of an automobile can always guess correctly what pedestrians will do or out-guess the other driver every time.

NECESSITY—Automobile liability insurance, covering liability for personal injuries.

WISDOM—Automobile property damage insurance, covering liability for damage to property of others.

PRUDENCE—Automobile collision insurance, covering damage to the insured automobile by collision.

It is not the amount of money one pays for insurance that counts, it is the amount of insurance plus the amount and quality of SERVICE one gets for the money.

L. P. EVANS

GENERAL INSURANCE

LINE UP WHEELS TO SAVE COSTLY TIRES

Not as Difficult a Task as Many
People Think.

Detailed Instructions, With Illustration, Showing Just How Operation May Be Performed—Make Auto Steer Easily.

Everybody knows that if the two front wheels of the automobile are not parallel, or nearly so, the side-slip of one of them, usually the right wheel, results in ruining the tires in a few hundred miles.

Few people, however, know how easy it is to measure the wheels and keep them parallel. The sketch given here with makes it clear. Take a piece of two by three inch scantling, or any stiff board which will lie flat under the car. Make two triangles, somewhat like carpenter's squares, out of three pieces of wood, as shown. One of these

Lining Up Wheels.

is to be fastened permanently to the scantling and the other is separate. Measure the exact height of the center of the hubs of the front wheels from the ground, and drive a long nail or screw through the upper part of each triangle so that the point of the screw will be at the same height as the center of the hub. This is important.

See that the car is standing on a level spot—a concrete floor is best. Place the scantling under the car so that the tip of the fixed screw touches the inside rim of the wheel at the rear edge. Take the movable triangle and slide it along until the tip of the movable screw touches the inside rim of the opposite wheel. Mark this position on the scantling.

Now move the apparatus to the front of the wheels and take another measurement of the distance between rims, marking on the scantling as before. The difference between the two marks on the scantling will show how much the wheels are out of true, and this can be corrected by changing the adjustment on the cross connection between the steering arms.

To make the car steer easily and hold the road closely, the front wheels should not be exactly parallel, but should "toe in" slightly—that is, the distance between the rims at the height of the hub should be about one-quarter inch less at the front of the wheels than at the back.

AUTOMOBILE HINTS

Do not let engine run when car is standing.

Studiously avoid spilling leakage and evaporation.

The spring clips are, in nine out of ten cases, neglected car parts.

Have the carburetor adjusted to give largest possible mileage per gallon.

One of the surest ways to shorten the life of a tire is the continual driving in deep ruts.

Do not fasten chains too tightly nor to a spoke. Many a tire has been ruined by disregarding this advice.

Leaky valve guides will cause misfiring, especially at low speeds, air being sucked in and diluting the mixture.

A source of noise that is frequently overlooked is the case covering the timing gears. It should be kept filled with lubricant.

A small quantity of glycerin applied to the wind shield with a piece of clean waste will help keep the glass clean when driving in the rain.

The penalty of non-lubrication is wear. The penalty of wear is noise and the penalty of noise is discomfort. In other words, oil and be comfortable.

GRABBING CLUTCH HARMFUL

Mechanism That Transmits Power From Engine to Wheels Is Receiving Destructive Strain.

The car owner should remember that when the clutch takes a fierce hold and does not have a slight slip, the mechanism that transmits the power from the engine to the drive wheels, particularly as regards pinions, universals and gear teeth, receives destructive strains.

Dr. C. S. Holton is confined to his home by illness.

STARTING MOTOR DURING WINTER

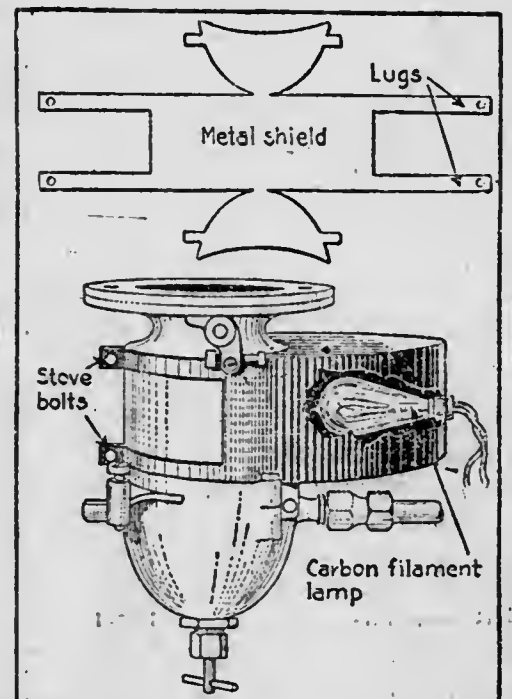

One of Simplest Ways Is Through
Application of Heat to
the Carburetor.

PLAN OF EFFICIENT DEVICE

Illustration Given Herewith Gives
Good Idea of What Is Wanted—
Carbon Filament Lamp Is
Particularly Adapted.

One of the simplest ways to start an automobile during cold weather is through application of heat to the carburetor. Most appliances to perform this particular duty are complicated and costly. The following device, which can be made by the amateur workman, will be found easy to construct and wonderfully efficient.

Use Metal Shield.
Cut out a metal shield, somewhat after the pattern shown in the sketch. The shape and size depend upon your particular make of carburetor, but the drawing gives a general idea of what is wanted. Bend the two short lugs in to form shoulders and then fit the longer lugs around the body of the carburetor.

Metal Shield to Hold an Ordinary Electric Globe Close to the Carburetor.

retor, tightening them in place with small stove-bolts. This will leave the shield projecting away from one side about two inches. Bend the top and bottom panels in place, forcing the small lugs inside the shell.

Carbon Filament Lamp Best.
After the shield is properly fitted, take it off and secure a lamp socket to the inside so that the bulb, when in place, will bear close to the carburetor. Use a carbon filament lamp as it gives the maximum amount of heat. Lead the wires from the base out through holes in the sides; being careful to insulate them from the metal. When all is complete, put the shield back in place and wrap the whole apparatus with thin asbestos paper. Then bind it on with fine wire.

Connect the wires with the storage battery of the car and with a convenient switch on the dash.

In the severest weather, this device will insure sufficient heat to start an automobile with but very little delay.

—L. B. Robbins, in Popular Science Monthly.

TREND TOWARD CAR HEATERS

Winter Driving Requires Some Form of Heating for Tonneau of Car for Comfort.

An outstanding feature of motor car production this season is said to be the trend toward car heaters. Twenty manufacturers are equipping all or part of their closed lines with heaters. Some automobile manufacturers think before long the heater will be regarded as a necessary part of standard equipment, since comfort in winter driving requires some form of heating for the tonneau for the car. This applies particularly to open models.

Arranging New Garage

C. H. Franz, of Cincinnati, is here assisting in the arrangement of the new garage of the Richmond Motor Company on West Main street, which is rapidly nearing completion. Mr. Franz is an efficiency man of the Ford Motor Company, and is arranging the parts cabinet in the new garage according to the most approved plans. A Fordson tractor or has been placed in one of the show windows and has been attracting much attention. This tractor is proving very popular whenever used, and its makers claim many advantages for it over any other type.

Mr. J. H. Oldham is in Louisville on a business trip.

MOUNT STRAIGHT-SIDE TIRES

Best Method Is First to Lay Rim on Floor and Insert Valve Stem in Proper Place.

The best method of mounting straight-side tires is first to lay the rim on the floor and insert the valve stem of the tire in the proper place. About ten inches of the bead on left sides of the valve should then be forced into place. After thus starting the tire it should be further forced into place by stamping on it, first on one side and then on the other, which as a rule is all that is necessary to seat the tire properly, though sometimes it may be necessary to resort to the aid of a tire tool. The ends of the rim may be brought into place with the use of a screw-driver, due care being taken not to set the wrong end of the rim on top.

It Happened in Kansas

A lot of funny things happen in Kansas. Also a lot of funny things remain there to happen, as witness the following, contributed by Orson Angell of the College of Emporia:

Four high school girls of Columbus, Kan., went in cahoots and bought a turkey for Christmas dinner. None of the girls had the nerve to chop off the bird's head so they chloroformed it, although the turkey nearly wrecked the premises before he quit flopping. Then the girls dry-picked the gobbler and put the carcass in the clothes closet to remain until ready to be dressed and roasted. A few hours later one of the girls went to the closet to get some article of apparel, and when she opened the door, the turkey (having recovered from the insufficient anesthetic) calmly walked out without a stitch on!

NEW SIGNALLING LAW FOR AUTOMOBILISTS

Proposed By Louisville Auto Club
Meeting With Much Favor
By Motorists Here

Several prominent Richmond automobilists are heartily in favor of the Uniform Signal law, which has been suggested by the Louisville Automobile Club. Suggestions have been that it be enacted into a state law, or else that each city adopted traffic ordinances putting this system of signalling into effect.

Upon request of local motorists the Daily Register republishes what was said of it in the Courier-Journal the other day:

It is virtually axiomatic among those motorists who have given study to the question that more than one-half of the minor accidents and a good many of the serious ones in places where traffic is congested are caused by failure on part of the motorist to signal his intentions in operating the car. That is to signal in such a manner that any other motorists in front, behind or at the side of the car, or any person nearby, may determine at once and definitely just what the signalling driver proposes to do. Many a smashed fender, many a damaging "side swipe", many a broken headlight, and many a narrow escape from inflicting serious injury upon the pedestrians could and would be avoided by the adoption of a system of signalling that is easily acquired by the motorist and easily understood by the public.

Louisville's present ordinance relating to the operation of automobiles is too vague to be of much actual good; it merely provides if a driver expects to run right the signal should be made by pointing in that direction with the right hand; if to the left, by pointing to the left with the left hand; the reader can readily see how difficult it would be under our present traffic regulations for a motorist in a left-hand driven car to give signal that he intends to turn right. The signal to slow down or stop under the existing ordinance provides that such a signal be given by extending the arm vertically. This would be interpreted under the law which is being generally adopted to indicate that the driver was turning in the opposite direction.

Motor traffic experts in California, Illinois and other states, where the number of automobiles is relatively far larger than in Kentucky, have reached the conclusion that a "one-hand" system of signals the left hand for the left-hand driver car, the right hand for the right-hand driver car will solve the whole problem.

The Louisville Automobile Club

through its Legislative Committee, of which Albert L. Terstege is chairman, is now preparing a law which is to be introduced at the present session of the Legislature, and it has also been presented to Chief of Police Petty with recommendation that it be made a city ordinance in lieu of the one that is now in force. It is the expectation of the club that in case their recommendation is enacted into law the organization will immediately conduct a State-wide campaign of education so that motorists and the public generally can be reasonably acquainted with the provisions in the measure by the time it becomes effective.

The signals are for a left-hand drive car, and are as follows:

Turning to the Right—Extend arm

outward and upward at an angle of 45 degrees.

Turn to the Left—Extend arm outward horizontally.

Stopping or Slowing—Extend arm downward at an angle of 45 degrees.

Signals for the driver of the right-hand drive car namely are:

Turning to the Right—Extend arm outward horizontally.

Turning to the Left—Extend arm outward and upward at an angle of 45 degrees.

Stopping or Slowing—Extend arm downward at an angle of 45 degrees.

Careful study of this signalling will, say those who have given the problem much thought, demonstrate its essential that all parties concerned know the significance of the movement made by the driver.

PAIGE

The Most Beautiful Car in America

The Newest and Finest of All Light Sixes

In these days of advanced engineering it is a very simple matter to design a six-cylinder motor that is both powerful and speedy. The complications arise, however, when to these qualities, must be added new standards of dependability and economy of operation.

There, in one paragraph, you have an explanation of the three years of experiment and testing behind our new five-passenger "Glenbrook" model.

A few months would have sufficed to produce the "average" power plant and chassis—but we have never been interested in "average" achievements.

So we worked for three long years, patiently meeting and solving every problem that confronted us.

Then came the final tests—the merciless trials of power, speed and endurance—and the proud realization that our car was indeed the finest of all light sixes.

The rest of the story you probably know, for the public has rendered its verdict in no uncertain terms.

The "Glenbrook" stands unchallenged as the greatest dollar-for-dollar value in the field of five-passenger motor cars.

We predict that it will maintain this position for several seasons to come.

PAIGE-DETROIT MOTOR CAR COMPANY, DETROIT, Michigan

LUXON GARAGE

The Motor Truck Investment of the United States

Business men of this country have invested hundreds of millions of dollars in Motor Trucks. The great bulk of that investment is in medium-priced trucks. The market for the six thousand dollar truck is small. It is rapidly narrowing. The truck users of this country have found that a high first cost means uneconomic transportation.

Bethlehem Motor Trucks are neither underbuilt to meet a price nor overbuilt to justify a price. They represent that point where quality and price balance; where greatest value is reached. They are willing to be judged as all motor trucks should be judged—on their ability to transport and the cost per ton mile of that transportation. Buy your Motor Truck on Facts.

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad, would be \$100,000—probably \$100,000 would not replace it.

GREAT INCREASE IN TOBACCO SALES

(By Associated Press)

Washington, Jan. 31—Stocks of leaf tobacco sold by manufacturers and dealers January 15 increased approximately 83,000,000 pounds over the same date a year ago.

MILLION POUNDS WAITING TO UNLOAD

Notwithstanding the fact that over five and a half million pounds of tobacco have already been sold over the Richmond breaks, there is estimated to be fully a million pounds more on wagons waiting to be unloaded at the two popular local warehouses. Supervisor of Sales Stone Norman has given out the following report of sales on the local market to date:

Home Tobacco Warehouse—3,223,205 pounds, for \$1,683,235.21
Madison Tobacco Warehouse—2,348,670 pounds, for \$1,207,627.16
Total sales 5,571,875 pounds for \$2,890,862.37

HEARD ABOUT TOWN

Mr. Isaac Smith, of the Speedwell section has moved with his family to Dreaming Creek Heights, the farm of Mr. Paul Burnam on Red House ridge, known as the Thomas Phelps home.

J. T. Lawrence has sold his farm containing 140 acres located three miles from Winchester on the Mt. Sterling pike, to J. W. Oliver, at a price of \$400 an acre or a total of \$56,000.

The Paris News says that Mrs. Frank M. Clay sold privately to Jesse M. Alverson, the modern cottage on Cypress street lately occupied by her son, Douglas K. Clay, for a price not made public. The house is one of the best small homes in Paris and is well located.

The demand for good saddle horses seems to be steady all the time now. Mack Hughes, Danville's well known horse dealer, sold a sorrel mare by Bright Chief, Dan Chester Chief, to Mr. Wilson of Chicago, for \$500. One for Mitchell Taylor, to same party, a four-year-old chestnut mare for \$400. He also sold a 5-year-old gelding for J. A. Robinson for \$200.

The Shelby News says that Geo. L. Willis, who has been spending a month with his family was called back to Washington by a telegram because of the illness of the rest of Senator Stanley's office force. Mr. Willis has been tentatively offered the place of chief of the publicity bureau being established by the Democratic State Headquarters but for the present will remain in Washington. Willis was secretary to the late Congressman Harvey Helm and is well known here.

Mr. Oakley Hilton, of Detroit Mich., Mr. Wm. Hilton, of Corbin, Mr. James Hilton, of Middlesboro, Mr. and Mrs. House, Danville, Mrs. Burrus, Covington Mrs. C. M. Brown and son, Mr. and Mrs. Palmer Myers, Mr. and Mrs. Larkin, Mr. and Mrs. Bagby Mr. John Chrisman, Mrs. Charles Burrus, Mrs. Ed Myers, Mrs. Day Mrs. Foley, Mr. Hughes, Mr. Bosley Parrish, Mr. C. G. Douglas and Mr. J. F. Hufnagle, all of Paris, were here Thursday to attend the funeral of Mrs. Joseph Hilton, whose remains were shipped here from Paris.

LILLIAN GISH AS A CHILD IN "BROKEN BLOSSOMS"

Miss Lillian Gish has again proved her remarkable talent as a screen actress in her performance of Lucy, the child in "Broken Blossoms", D. W. Griffith's art sensation, soon to be shown at the local theatres. In Thomas Burke's story, "The Chink and the Child," taken from "Limehouse Nights", Lucy, the daughter of "Batling Burrows," is supposed to be 12 years old, but with the license of the artistic producer, Mr. Griffith took the liberty of adding three years to her age.

Few who see her performances as Lucy will forget that tragic moment when at her bullying father's command she tries to push her wan lips into the semblance of a smile. Mr. Griffith declares that this was a purely involuntary piece of acting; for when, during the photography of the first scene of cruelty between her father and herself and she was all in very real tears, he suggested as director, that she smile through her tears.

Scene that she tried to smile, but could not, and then, quite naturally and without thought of artifice, she, with trembling fingers tried to push up the corners of her lips. It was so pathetic and human a gesture that Mr. Griffith at once realized its value and it remains one of the striking notes of the performance of this moving "tale of loves and lovers."

COLORED COLUMN

(John Cobb, reporter)

Good clothes or nothing

That's our policy. If we can't get good clothes for you; clothes worth the money—we won't sell anything. Right now when merchandise is so hard to get, many merchants are tempted to load up with poor stuff—there's no trouble in getting that.

We won't do it. If you come in here to buy clothes and we haven't good ones in your size, we'd rather see you go out without buying than to give you poor quality that would not render good service.

New shipments of fine all-wool clothes are coming to us every day from Hart Schaffner & Marx. They're the kind of clothes you ought to have. If we haven't your size today, we'll have it a little later—such quality is worth waiting for.
